SEE OTHER SIDE.

The best all steel hoe ever made for nurserymen, florists, and small fruit growers. Can't be beat. Remember it is an all steel blade of the best material.
Complete 90c

This Tree Digger is the best implement of its kind ever offered. No nurseryman, florist or small fruit grower can afford to be without one. An excellent subsoiler. Is indispensable for digging currants, gooseberries, grapes, seedlings of all kinds, also for cutting under evergreens or other trees and plants that should be transplanted to obtain a good root system. By cutting on one side will sever all the tap roots but not disturb the tree enough to stop its growth, thus saving all the expense of digging and transplanting trees each year.

Good for cleaning off ground.

Complete with [redacted] Single Tree..... \$18.00

New Blade 5.00

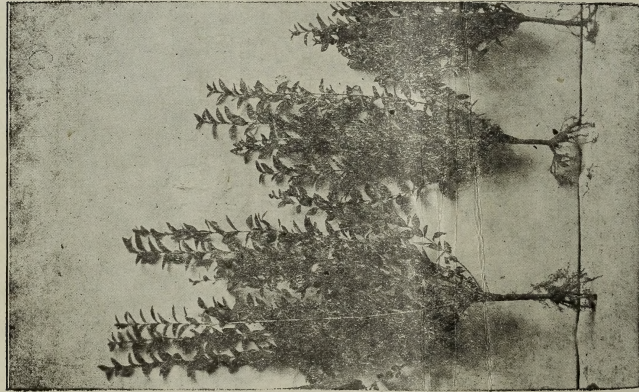

A Dibble like this is a necessity for every nurseryman and florist.
Complete 80c
